05

01

Manually adjustable presser foot pressure fits every kind of fabric. Disengage the knives and sew on elastic or trimming. Try the blind stitch for perfect invisible hem.

02

Differential feed helps to adjust sewing for perfectly even, pucker or waver-free stitches. It also allows stretching, gathering or ruffling the fabric.

03

Compact machine with a durable all-metal core guarantees heavy-duty performance and longevity.

Automatic lower looper threader makes threading easier and faster.

04

Free-arm is useful for sewing narrow parts as sleeves or trousers.

05

Your workspace remains clean thanks to included cut-offs bin.
